Environmental Health: Hazards

- Analyse the hazards that exist in recreation and exercise environments and identify ways of minimizing those hazards

Battered Toia pays big price

<http://au.news.yahoo.com/thewest/sport/a/-/afl/13077350/battered-toia-pays-big-price/>

This work sheet available at: <http://www.bonesandjoints.com.au/teachers/teachers-joints/>

Before you read the short feature article

1. Locate and record the following parts of the article.

| | |
|-------------------------|--|
| Name of the publication | |
| Date of publication | |
| Headline | |
| By-line | |
| Describe picture | |
| Caption | |

2. Who is "Toia"? _____

3. What do you think the article will be about?

4. What do you think will be the message of the article?

5. For which audiences is this message intended?

Whilst you are reading the article, note down the activities that Toia finds difficult.

| | | |
|--|--|--|
| | | |
| | | |
| | | |
| | | |

After reading the article, answer this question. Put your ideas in the space provided then using complete sentences, write your answer over the page. Remember: a sentence is a complete idea.

Do you think that the rules of sports should be changed to make long term damage to bones and joints less likely? Consider: rugby, soccer, football, hockey, netball, basketball, archery or another activity.
